UNIVERSITY OF MONTANA OFFERS
PROGRAMS FOR HIGH SCHOOL STUDENTS

MISSOULA--

Several educational options are available at the University of Montana in Missoula for high school students who are interested in enrolling in University courses.

These options include the Pilot Project for High School Students; the two special one-week summer sessions; the "Summer Only" status, or regular admission as freshmen at UM.

High school freshmen, sophomores, junior or seniors may take UM courses during the regular academic year or the summer session under the Pilot Project for High School Students. Courses may be taken on a "pass/not pass" or traditional letter-grade basis.

Interested persons should contact their school counselors or the Center for Continuing Education and Summer Programs (CCESP) on the Missoula campus.

High school students may enroll in either of the one-week special sessions offered at UM for credit, or, if they decide to forego admission procedures, they may take courses for noncredit. Students may register for the Pre-Session, June 14-18, or the Intersession, July 19-23, via mail or at the first class meeting on the UM campus.

Graduates of fully accredited high schools who are Montana residents are eligible for admission as new freshmen at UM. All new freshmen are required to take the American College Test (ACT) and to fulfill UM admission requirements.

To become "Summer Only" students at the University, interested persons need only be high school graduates. This option may be especially attractive to high school graduates who wish to experience college life for a short time. A "Summer Only" student can become a regular degree student at UM by submitting transcripts and credentials from each high school attended, applying for a change of status and meeting the requirements for regular student admission.

For more information about UM Summer options or a Summer session catalog write the CCESP, Main Hall 107, University of Montana, Missoula, Mont., 59801, or phone 243-2900.
